

Payment Card Industry (PCI) Point-to-Point Encryption

Attestation of Validation – P2PE Solution

Version 2.0

September 2015

P2PE Solution Attestation of Validation

Instructions for Submission

The Point-to-Point Encryption Qualified Security Assessor [QSA (P2PE)] must complete this document as a declaration of the P2PE Solution's validation status with the Point-to-Point Encryption (P2PE) Standard. Completion of this document by the P2PE Solution Provider for the sole purpose of the Interim Self-Assessment (Annual Revalidation) does not require the use of a QSA (P2PE).

The QSA (P2PE) and/or the P2PE Solution Provider should complete all applicable sections and submit this document along with copies of all required validation documentation to PCI SSC, per PCI SSC's instructions for report submission as described in the *P2PE Program Guide*.

Note: Parts 1 and 2 must be completed.

Part 1. P2PE Solution Provider and P2PE Assessor Information

Part 1a. P2PE Solution Provider Information

Company Name:	N&TS GROUP Networks & Transactional Systems Group S.p.A.				
Contact Name:	Loredana Febelli	Title:	Compliance Manager		
Telephone:	+39 02 8227651	E-mail:	l.febelli@netsgroup.com		
Business Address:	MilanoFiori Strada 4 Palazzo A5	City:	Assago		
State/Province:	Milano	Country:	Italia	Postal Code:	20090
URL:	https://netsgroup.com/				

Part 1b. QSA (P2PE) Information

QSA (P2PE) Company Name:	Advantio Ltd.				
Primary QSA (P2PE) Contact Name:	Ero Rodriguez Losada	Title:	Senior Security Consultant		
Telephone:	+34 664323998	E-mail:	ero.rodriguez@advantio.com		
Business Address:	Block 4, Harcourt Centre - Harcourt Road	City:	Dublin		
State/Province:	Not Applicable	Country:	Ireland	Postal Code:	D02 HW77
URL:	www.advantio.com				

Part 2. Submission Type

Identify the type of submission and complete the indicated sections of this P2PE Attestation of Validation associated with the chosen submission type (check only one).

Please refer to the P2PE Program Guide for details about each submission type.

<input checked="" type="checkbox"/>	Full Solution Validation	Complete Parts 3a, 3b, 3c, 3d, 4a, 4e, 5a, 5d
<input type="checkbox"/>	Interim Self-Assessment (Annual Revalidation)	Complete Parts 3a, 3b, 3c, 3d, 4b, 4e
<input type="checkbox"/>	Administrative Change	Complete Parts 3a, 3b, 3c, 3d, 4c, 4e, 5b, 5d
<input type="checkbox"/>	Designated Change	Complete Parts 3a, 3b, 3c, 3d, 4d, 4e, 5c, 5d

Part 3. P2PE Solution Information

Part 3a. P2PE Solution Identification

P2PE Solution Name: N&TS GROUP Total Care

Is P2PE Solution already listed by PCI SSC?

Yes *

No

* If Yes:

PCI SSC Listing #:

Listing expiry date:

Part 3b. List of PCI-approved POI Validated as Part of P2PE Solution:

Part 4. P2PE Solution Provider Attestation

N&TS GROUP Networks & Transactional Systems Group S.p.A. asserts the following status for the P2PE Solution identified in Part 3a of this document as of *June 28, 2021* (Complete one of Parts 4a, 4b, 4c, and 4d; and complete Part 4e):

Part 4a. Confirmation of Validated Status

<input checked="" type="checkbox"/>	The QSA (P2PE) has been provided with all documentation and resources necessary to achieve an accurate assessment of the P2PE compliance status of <i>N&TS GROUP Total Care</i> .
<input checked="" type="checkbox"/>	We confirm the scope of the P2PE Solution is accurate and includes all devices, data flows, processes, cryptographic key-management functions, and data stores applicable to <i>N&TS GROUP Total Care</i> .
<input checked="" type="checkbox"/>	<i>N&TS GROUP Networks & Transactional Systems Group S.p.A.</i> acknowledges our obligation per Requirement 3A-3 of the P2PE Standard v2 to implement processes to respond to notifications from merchants, component providers, and/or third parties, and provide notifications about any suspicious activity involving <i>N&TS GROUP Total Care</i> .

Part 4b. Interim Self-Assessment (Annual Revalidation)

Based on the results noted in the P-ROV dated (*date of P-ROV*), (*P2PE Solution Provider Name*) asserts the following for the P2PE Solution identified in Part 3a of this document as of (*date*)(each item to be confirmed):

Note: Any modifications that have been made to the P2PE Solution covered by this AOV that are considered a Designated Change per the P2PE Program Guide must be submitted and accepted by PCI SSC via the Designated Change process before the Interim Self-Assessment can be accepted by PCI SSC.

<input type="checkbox"/>	Any modifications made to (<i>P2PE Solution Name</i>) that are considered a Designated Change per the P2PE Program Guide have already been submitted and accepted by PCI SSC via the Designated Change process with the QSA (P2PE) Assessor.
<input type="checkbox"/>	All modifications to (<i>P2PE Solution Name</i>) made in the last 12 months that are NOT considered a Designated Change have been implemented in a manner that ensures continued adherence to P2PE requirements for the entire P2PE Solution and in accordance with the P2PE Program Guide and the Vendor Release Agreement.
<input type="checkbox"/>	Where P2PE component providers are used, (<i>P2PE Solution Provider Name</i>) attests that all requirements for the Solution Provider to manage and monitor status reporting from P2PE component providers are in place and have been for the last 12 months, with documentation retained.
<input type="checkbox"/>	Where third parties are contracted to perform P2PE functions on behalf of the Solution Provider, (<i>P2PE Solution Provider Name</i>) attests that formal agreements with such third parties have continued to be facilitated and maintained by the Solution Provider for the last 12 months.
<input type="checkbox"/>	(<i>P2PE Solution Provider Name</i>) attests that the decryption environment has been verified as PCI DSS compliant within the last 12 months.
<input type="checkbox"/>	(<i>P2PE Solution Provider Name</i>) attests that all information provided to PCI SSC in connection with this Interim Self-Assessment is and shall be accurate and complete as of the date such information is provided.

Part 4c. Administrative Change

Based on the *Solution Provider Change Analysis* documentation, (*P2PE Solution Provider Name*) asserts the following for the P2PE Solution identified in Part 3a of this document as of (*date*) (each item to be confirmed):

<input type="checkbox"/>	Only administrative changes have been made to (<i>P2PE Solution Name</i>), resulting in no impact to P2PE functionality or any P2PE requirements.
<input type="checkbox"/>	All changes have been accurately recorded in the <i>Solution Provider Change Analysis</i> document provided to the QSA (P2PE) and provided with this attestation.

Part 4d. Designated Change

Based on the *Solution Provider Change Analysis* documentation (*P2PE Solution Provider Name*) asserts the following for the P2PE Solution identified in Part 3a of this document as of *(date)* (*each item to be confirmed*):

- | | |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> | Only designated changes have been made to (<i>P2PE Solution Name</i>) as defined in the <i>P2PE Program Guide</i> . |
| <input type="checkbox"/> | All changes have been accurately recorded in the <i>Solution Provider Change Analysis</i> document provided to the QSA (P2PE) and provided with this attestation. |
| <input type="checkbox"/> | The QSA (P2PE) has been provided with all documentation and resources necessary to perform an assessment of the designated change to (<i>P2PE Solution Name</i>). |
| <input type="checkbox"/> | If adding a POI Device, (<i>P2PE Solution Provider Name</i>) attests that the added POI device will be managed in the same manner as other POI devices in (<i>P2PE Solution Name</i>) in accordance with Domain 1B. |
| <input type="checkbox"/> | If adding a P2PE Application, (<i>P2PE Solution Provider Name</i>) attests that the added Application will be implemented according to the Implementation Guide provided by the application vendor for (<i>P2PE Solution Name</i>). |

Part 4e. Solution Provider Vendor Acknowledgment

N&TS GROUP Networks & Transactional Systems Group S.p.A. asserts the following for the P2PE Solution identified in Part 3a of this document as of *June 28, 2021* (*each item to be confirmed*):

- | | |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input checked="" type="checkbox"/> | All information contained within this attestation represents the results of the validation and/or change analysis fairly in all material respects. |
| <input checked="" type="checkbox"/> | We acknowledge our obligation to ensure the accuracy of the P2PE Solution scope is maintained, and any changes to N&TS GROUP Total Care are implemented in a manner that ensures continued adherence to P2PE requirements for the entire Solution. |
| <input checked="" type="checkbox"/> | <i>N&TS GROUP Networks & Transactional Systems Group S.p.A.</i> acknowledges our obligation to provide all merchants using N&TS GROUP Total Care with an up-to-date version of the validated P2PE Solution's P2PE Instruction Manual (PIM). |
| <input checked="" type="checkbox"/> | We have adopted and implemented documented Vulnerability Handling Procedures in accordance with Section 2(a)(i)(C) of the <i>Vendor Release Agreement</i> dated <i>March 3, 2020</i> , and confirm we are and will remain in compliance with our Vulnerability Handling Procedures. |

Part 5. QSA (P2PE) Attestation of Validation

Ero Rodríguez Losada QSA(P2PE) #400-159 asserts the following status for the P2PE Solution identified in Part 3a of this document as of June 28, 2021 (Complete one of Parts 5a, 5b and 5c; and complete Part 5d):

Part 5a. Confirmation of Validated Status

<input checked="" type="checkbox"/>	Validated: All requirements in the P-ROV are marked “in place,” thereby N&TS GROUP Total Care has achieved full validation with the PCI Point-to-Point Encryption Standard as a P2PE Solution.
<input checked="" type="checkbox"/>	The P-ROV was completed according to the P2PE Standard version 2.0, in adherence with the instructions therein.
<input checked="" type="checkbox"/>	All information within the above-referenced P-ROV and in this attestation represents the results of the assessment fairly in all material respects.

Part 5b. QSA (P2PE) Attestation of Administrative Change

Based on the *Solution Provider Change Analysis* provided by (*P2PE Solution Provider Name*), (*QSA (P2PE Name)*) asserts that the documentation supports the Solution Provider’s assertion that *only administrative changes* have been made to (*P2PE Solution Name*) as of (*date*), resulting in (*each item to be confirmed*):

<input type="checkbox"/>	No Impact to P2PE security controls or P2PE functionality
<input type="checkbox"/>	No Impact to any P2PE Requirement
<input type="checkbox"/>	All information contained with the above-referenced <i>Solution Provider Change Analysis</i> and in this attestation represents the results of the change assessment fairly in all material respects.

Part 5c. QSA (P2PE) Attestation of Designated Change

Based on the *Solution Provider Change Analysis* provided by (*P2PE Solution Provider Name*), (*QSA (P2PE Name)*) asserts that the documentation supports the Solution Provider’s assertion that *only eligible Designated Changes* have been made to (*P2PE Solution Name*) as of (*date*), resulting in (*each item to be confirmed*):

<input type="checkbox"/>	(<i>QSA (P2PE Name)</i>) agrees that the documented changes are eligible as Designated Changes.
<input type="checkbox"/>	All requirements in the red-lined P-ROV are marked as “in place,” and thereby the change has met the applicable requirements of the P2PE Standard.
<input type="checkbox"/>	All information contained within the above-referenced <i>Solution Provider Change Analysis</i> and in this attestation represents the results of the change assessment fairly in all material respects.

Part 5d. QSA (P2PE) Acknowledgment

 <small>DocuSigned by: ABA9DEC3FF57486...</small>	June 29, 2021

QSA (P2PE) Company ↑	

Part 6. PCI SSC Acceptance

PCI SSC does not assess or validate P2PE Solutions for P2PE compliance. The signature below and subsequent listing of a P2PE Solution on the List of Validated P2PE Solutions signifies that the applicable QSA (P2PE) has determined that the P2PE Solution complies with the P2PE Standard, that the QSA (P2PE) has submitted a corresponding P-ROV to PCI SSC, and that the P-ROV, as submitted to PCI SSC, has satisfied all applicable quality assurance review requirements as of the time of PCI SSC's review.

Signature of PCI Security Standards Council ↑	Date ↑
